Meet the Docs Team

Doug Eby   Content Manager – Microsoft Endpoint Manager technologies

Writer	Primary Tech	Areas of responsibility
Aaron Czechowski	ConfigMgr	ConfigMgr lead, core, co-management, CMG, OSD, security, PowerShell, etc.
Brent Dunsire	Intune	Compliance policy, Microsoft Defender for Endpoint, MTD, security baselines, certificate profiles, etc.
Erik Kjerland	Intune/ CloudPC	Doc release, Intune setup, enrollment, Cloud PC, manage devices, RBAC, etc.
Laura Newsad	Intune	UX lead, end user, Intune EDU, platform docs, etc.
Mandi Ohlinger	Intune/ MEM	Configure devices (profiles), architecture, planning/deployment, etc.
Erik Reitan	Intune / MEM	App management, app protection policies, Data Warehouse, developer guidance & APIs, Learn platform, etc.
Meghan Stewart	ConfigMgr / MEM	Tenant attach, Endpoint Analytics, software updates, etc.

What's our focus?

- Release content (new features)
- Scenario and solution-based content
- Skilling content on Microsoft Learn
- UI string reviews
- Edit pass on contributions
- Responding to customer feedback
- New content to fill gaps
- Maintenance on existing content

Contribute to Docs – why is it important?

- Directly help other customers use MEM technologies
- Explain the technology with your experience
- You have insights and operational experiences that we don't have
- Help us to fill content gaps
- Help us to keep content fresh/updated/maintained
- Contributions highlighted / name associated with article
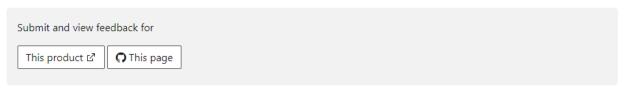

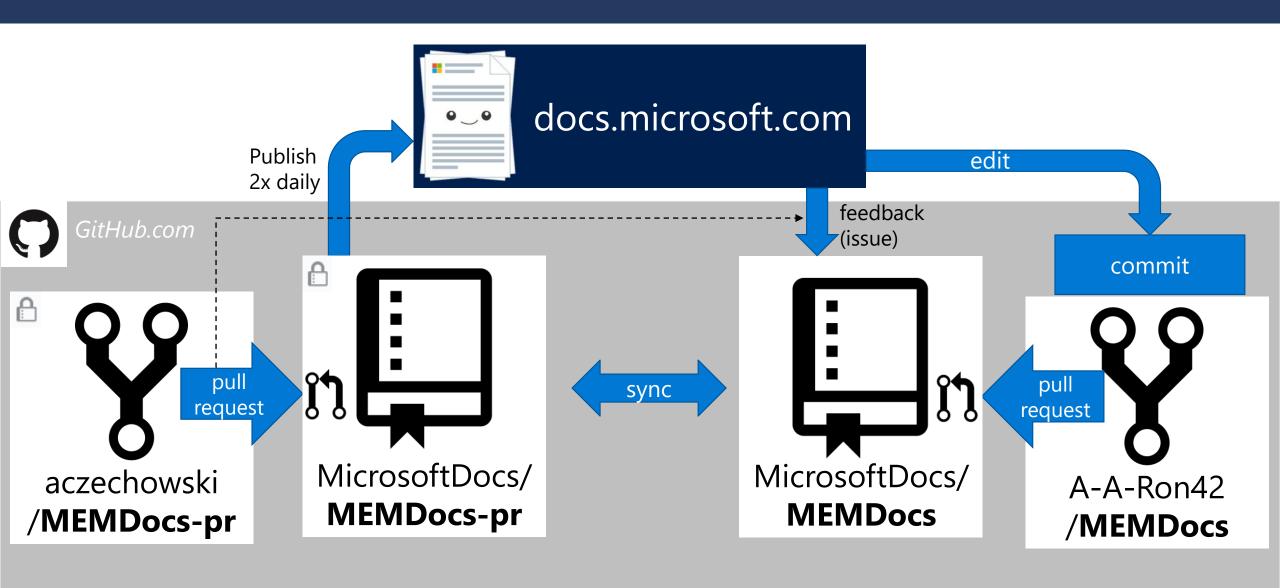

11/30/2020 • 2 minutes to read •

- View feedback from other customers

A slightly deeper dive

Microsoft Learn modules

- MEM learning paths and modules on Microsoft Learn

- Learning paths, modules, units, knowledge check, progress

- Microsoft Endpoint Manager fundamentals

  - Seven modules to introduce you to MEM

  - Additional published MEM modules:

    - Plan your migration to Microsoft Endpoint Manager
    - Determine your endpoint management implementation
    - Set up Microsoft Intune
    - Set up tenant attach using Microsoft Endpoint Configuration Manager

  - Content plans

- Microsoft Learn tour

  - Track your Learn activity, challenges, certifications, and achievements

  - View your tech profile

Resources

📝 Contribute

- [MEM docs resources and tips](#)
  This topic covers documentation search, feedback, notifications, and contributions.

- [Set up a GitHub account](#)
  Create a GitHub account. You only need to do this once.

- [Docs contributor guide](#)
  This guide includes information about creating, publishing, and updating technical content on docs.microsoft.com (Docs).

  - [Make edits to existing docs](#)
    You can submit quick edits for review by making a pull request. This article provides the simple workflow to do this.

  - [Markdown reference](#)
    Use markdown to style and format the text included in Microsoft docs.

- [Microsoft Style Guide](#)
  Use this guide to follow the suggested writing style and terminology, including [Top 10 tips](#) for Microsoft style & voice.
